摘要 记载广西花坪林区蜻蜓目 Odonata 昆虫 14 种, 其中 4 种为广西新记录种: 巨齿尾溪虫 *Bayadera melanopteryx* Ris 大赤蜻 *Sympetrum baccha* Sylys 秋赤蜻 *S. depressiusculum* Selys 及褐顶赤蜻 *S. infuscatum* Selys 观察标本保存于山西大学生物系和广西师范大学生物系。

关键词 蜻蜓 种类 调查

中图法分类号 Q969.22

Abstract An investigation of dragonflies from Huaping Natural Reserve, Guangxi Zhuang Autonomous Region was conducted, 14 species were reported in the present paper, and among them 4 species recorded newly in Guangxi, they are *Bayadera melanopteryx* Ris, *Sympetrum baccha* Sylys, *S. depressiusculum* Selys and *S. infuscatum* Selys. The examined specimens were deposited in the Department of Biology, Shanxi University and the Department of Biology, Guangxi Normal University.

Key words dragonfly, species, investigation

作者于 1996 年 7 月在广西花坪林区采集昆虫标本时采集到一批蜻蜓标本, 经鉴定共 14 种, 其中 4 种为广西新记录种 (文中标注“△”者) 名录如下:

色虫忽科 Calopterygidae

1. 赤基色虫 *Echo incarnata* Karsch

溪虫忽科 Epallagidae

2. 巨齿尾溪虫 *Bayadera melanopteryx* Ris[△]

3. 闪溪虫 *Caliphaea confusa* Selys

Davies 等 (1984) 认为, 在 *Caliphaea* 属已记载的 4 种中, 2 种为 *C. confusa* 的异名, 其中包括广西记载的紫闪溪虫忽 (相似溪虫忽) *C. consimilis* MacLachlan 在此作者将其正名为闪溪虫忽 *C. confusa*。

4. 蓝斑溪虫 *Anisopleura fuecata* Selys

综虫忽科 Synlestidae

5. 褐尾绿综虫 *Megalestes distans* Needham

春蜓科 Gomphidae

6. 朝比奈华春蜓 *Sinogomphus asahinai* Chao

7. 弗鲁戴春蜓 *Davidius fruhstorferi* Selys

** 广西师范大学生物系, 桂林市育才路 3 号, 541004 (Department of Biology, Guangxi Normal University, 3 Yucai Lu, Guilin, Guangxi, 541004)

蜻科 Libellulidae

8. 异色灰蜻 *Orthetrum melania* Selys

9. 赤褐灰蜻 *O. pruinatum neglectum* Rambur

10. 大赤蜻 *Sympetrum baccha* Selys[△]

11. 竖眉赤蜻 *S. eroticum eroticum* Selys

12. 秋赤蜻 *S. depressiusculum* Selys[△]

本种在国内曾被认为是 *S. frequens*, 经朝比奈正二郎 (Asahina S 1984) 博士考证, 确认为误定

13. 褐顶赤蜻 *S. infuscatum* Selys[△]

14. 黄蜻 *Pantala flavescens* Fabricius
